

Torres Y Ribelles

Since 1914

Spain's Liquid Gold

Spain is the leading country in production and commercialization of olive oil, representing 50% of the world's olive oil production.

Categories

Extra Virgin Olive Oil

It is obtained only from the fruit of the olives, then receive the treatment like washing, decantation, centrifugation, and filtering to get the extra virgin oil.

Olive Oil

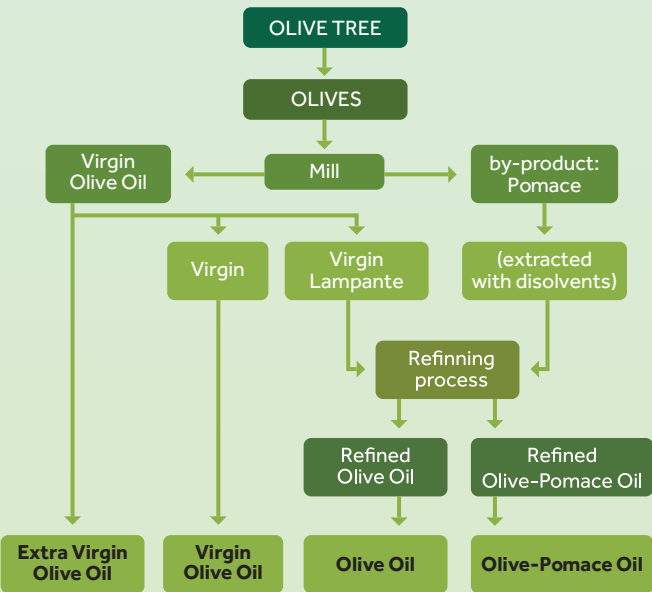

It is composed of refined oil and extra virgin olive oil, after a refining process to remove the taste and odor.

Olive-Pomace Oil

It is the solid paste obtained from the olive oil production process. The pomace olive oil consists of a mixture of refined olive-pomace oil and extra virgin olive oils.

Its many health benefits have contributed to the rise in consumption of olive oil as part of the **Mediterranean diet**, named an Intangible Cultural Heritage by UNESCO.

- Olive oil helps to reduce “bad cholesterol” (LDL) and preserve “good cholesterol” (HDL). Olive oil has vitamins A, D, K, and especially E.
- Olive oil reduces the risk of heart diseases and some types of cancer. It also helps to maintain low blood pressure and to alleviate arthritis.
- Helps to improve the appearance and texture of your skin, rejuvenating it.

Torres Y Ribelles

Torres y Ribelles was established in 1914 and in a short period of time, it became the official supplier of the Spanish Royal House during the reign of HM King Alfonso XXIII. We started exporting in 1927 and more than 80 years later **we operate on all 5 continents.**

Today, we are **one of the top-ten Spanish olive oil exporting companies** with our own brand **BETIS.**
